

**Список основных публикаций д.х.н., профессора, член-корр. АН РБ,
г.н.с. Одиноква Виктора Николаевича**

1. Галяутдинов И.В., Садретдинова З.Р., Мозговой О.С., Гибадуллина Г.Г., Халилов Л.М., Муслимов З.С., Одинокв В.Н. 7α -Алкилирование, 7,7-бисалкилирование и восстановление 20-кетогруппы постстерона при взаимодействии с галогеналканами в литий-аммиачном растворе // ЖОрХ, 53(1), 2017, 112-119.
2. Petukhova N.I., Kon'shina I.I., Spivak A.Yu., Odinson V.N., Zorin V.V. Novel biocatalyst for productions of S-(-)-2-[6-benzyloxy-2,5,7,8-tetramethylchroman-2-yl] ethanol-precursor of natural α -tocols // Appl. Biochem. Microbiol., 53(2), 2017, 187-193.
3. Savchenko R.G., Kostyleva S.A., Meshcheryakova E.S., Khalilov L.M., Parfenova L.V., Odinson V.N. Synthesis of novel α -aminoecdysteroids via regio- and stereoselective oximation/hydrogenation of 20-hydroxyecdysone derivatives // Can. J. Chem., 95(2), 2017, 130-133.
4. Spivak A.Yu., Nedopekina D.A., Khalitova R.R., Gubaidullin R.R., Odinson V.N., Bel'skii Yu.P., Bel'skaya N.V., Khazanov V.A. Triphenylphosphonium cations of betulinic acid derivatives: synthesis and antitumor activity // Med. Chem. Res., 26(3), 2017, 518-531.
5. Galyautdinov I.V., Khairullina Z.R., Sametov V.P., Muslimov Z.S., Khalilov L.M., Odinson V.N. 7α -alkylation and 7,7-bis-alkylation of 20-hydroxyecdysone with propargyl bromide in a lithium-ammonia solution and catalytic reductive spirocyclization of 7,7-bis(2-propyn-1-yl)-14-deoxy- Δ (8(14))-20-hydroxyecdysone // Steroids, 107, 2016, 121-127.
6. Spivak A.Yu., Gubaidullin R.R., Galimshina Z.R., Nedopekina D.A., Odinson V.N. Effective synthesis of novel C(2)-propargyl derivatives of betulinic and ursolic acids and their conjugation with β -D-glucopyranoside azides via click chemistry // Tetrahedron, 72(9), 2016, 1249-1256.

7. Ponedel'kina I.Yu., Gaskarova A.R., Galimzyanova N.F., Odinokov V.N. Hydroxamates of Polyuronic Acids: Synthesis and Resistance to *Aspergillus niger* // Chem. Nat. Compd., 52(4), 2016, 683-685.
8. Salimova E.V, Tretyakova E.V, Parfenova L.V, Odinokov V.N. Synthesis of 5,19-(2,6-Dimethylpyridin-4-yl)-trisorlupane and Oleanane // Nat. Prod. Commun., 11(3), 2016, 377-380.
9. Tretyakova E.V, Salimova E.V, Odinokov V.N, Dzhemilev U.M. Synthesis of a Novel 1,2,4-Oxadiazole Diterpene from the Oxime of the Methyl Ester of 1 β ,13-Epoxydihydroquinopimaric Acid // Nat. Prod. Commun., 11(1), 2016, 23-24.
10. Tolstikov A.G., Savchenko R.G., Lukina E.S., Limantseva R.M., Nedopekin D.V., Khalilov L.M., Meshcheriakova E.S., Odinokov V.N. One-Pot Synthesis of Novel Cyclopentene-Fused Octahydropyridoquinolines and Octahydrophenanthrolines // Synthesis 47(16), 2015, 2467-2472.
11. Galyautdinov I.V., Khairullina Z.R., Zaripova E.R., Sametov V.P., Mescheryakova E.S., Muslimov Z.S., Mozgovoi O.S., Khalilov L.M., Odinokov V.N. Stereospecific 7 α -alkylation of 20-hydroxyecdysone in a lithium-ammonia solution // Steroids, 98, 2015, 122-125.
12. Tretyakova E.V, Smirnova I.E, Salimova E.V, Odinokov V.N. Synthesis and antiviral activity of maleopimaric and quinopimaric acids' derivatives // Bioorg. Med. Chem., 23(20), 2015, 6543-50.
13. Araslanova D.I., Ponedel'kina I.Yu., Tyumkina T.V., Odinokov V.N. Conjugates of Polyguluronic and Polymannuronic Acids with 4-Aminoantipyrine. Determination Using 1H-13C HSQC Spectra of Triad Units and Their Distribution in the Polysaccharide Chain // Chem. Nat. Compd., 50(2), 2014, 220-224.
14. Savchenko R.G., Kostyleva S.A., Kachala V.V., Khalilov L.M., Odinokov V.N. Hydroxylation and epimerization of ecdysteroids in alkaline media: Stereoselective synthesis of 9 α -hydroxy-5 α -ecdysteroids // Steroids, 88, 2014, 101-105.

15. Spivak A. Yu, Gubaidullin R.R, Nedopekina D.A, Shakurova E.R, Khalitova R.R, Keiser J., Vargas M., Odinokov V. N. Synthesis and activity of new triphenylphosphonium derivatives of betulin and betulinic acid against *Schistosoma mansoni* in vitro and in vivo // *Bioorg. Med. Chem.*, 22(21), 2014, 6297-304.
16. Grigor'eva A.V., Galyautdinov I.V., Khalilov L.M., Yanybin V.M., Odinokov V.N. N-[2-(5-Hydroxy-1H-indol-3-yl)ethyl]-p-coumaramide from *Phragmites australis* // *Chem. Nat. Compd.*, 48(6), 2013, 1117-1118.
